

Experience

2/2013 - Present

Davis Brody Bond New York, NY
Associate

- Integral part of the construction administration team for the National September 11th Memorial Museum. Tasks included the coordination of complex construction issues, submittal and shop drawing review, RFI resolution, punch-listing, project close-out, and the oversight of construction quality control.
- Member of the schematic design team for the renovation and expansion of The Frick Art Collection, an early 20th Century Beaux-Arts mansion turned museum. Tasks included massing and design development, programming, interior space planning, and the coordination of the design with a diverse cast of engineering and specialty consultants.

8/2010 - 2/2013

David Coleman / Architecture Seattle, WA
Intern Architect

- Created permit drawings for numerous modern residential projects.
- Created a graphic presentation of David Coleman's work, which led to his election into the AIA's College of Fellows.
- Worked on marketing efforts including the redevelopment of David Coleman's online portfolio, connecting the office to social media, and successfully getting projects published in both print and online media. These efforts led directly to the acquisition of new clients.

4/2008 - 2/2009

Greyscale Architecture + Design Seattle, WA
Intern Architect

- Completed land use and code analysis for multi-family housing projects.
- Created drawings for and permitted numerous modern, design-oriented townhome development projects.
- Worked as co-designer on the schematic design of numerous single and multi-family residential projects.

8/2005 - 8/2007

Kovalenko Hale Architects Seattle, WA
Intern Architect

- Worked in conjunction with firm partners to produce construction drawings for retail, single and multi-family residences, and affordable housing projects.
- Worked on construction administration tasks including tracking and responding to RFIs for a historic, heavy-timber adaptive re-use project. Developed historic tax credit application materials.
- Co-managed the creation of working drawings for an 80+ unit apartment complex for a non-profit developer.
